[2]Department/Institute, University, City, Country (Repeat as required)

Corresponding Author: Name, Email address

ABSTRACT

A structured abstract (200–300 words) summarising the background, objectives, methodology, results, and conclusion. Citations should not be included in the abstract.

Keywords: 5–7 scientific keywords are required.

INTRODUCTION

- Provide background and rationale for the study.
- Clearly state the research problem and objectives.
- Highlight the novelty and significance of the work.
- Support statements with appropriate references.

MATERIALS AND METHODS

- Write here the procedure/technique of your research study.
- Statistical Analysis (Include if applicable).

RESULTS

- Present findings in a logical sequence.
- Use tables, figures, and charts with proper numbering and captions.
- Report statistical values where relevant.

CC BY 4.0 — Author(s), Year; reuse permitted with attribution.

DISCUSSION

- Interpret results in relation to existing literature.
- Explain the implications, strengths, and limitations of the study.
- Provide scientific reasoning for observed outcomes.

STUDY LIMITATIONS

- Authors must provide a concise statement of the limitations of their study. This section should acknowledge factors that may affect the validity, generalisability, or interpretation of the findings.

CONCLUSION

- Summarise the key findings and their relevance. Suggest future directions if applicable.

DECLARATION BY AUTHORS

- **Ethical Approval:** State **"Approved by Institutional Ethics Committee" or "Not applicable."**
- **Acknowledgements:** Authors may acknowledge individuals, institutions, or organizations that contributed to the work. If there are no acknowledgements, please state: **"No acknowledgements to declare."**
- **Funding:** Specify source of support, or state: **"None."**
- **Conflict of Interest:** Authors must declare any potential conflicts of interest related to their submitted work. If no conflicts exist, please state clearly: **"The authors declare no conflict of interest."**

REFERENCES

- References must be prepared and formatted in accordance with the Vancouver citation style. Ensure accuracy and completeness.

CC BY 4.0 — Author(s), Year; reuse permitted with attribution.

CITATION FORMAT

- Author(s) up to six, followed by et al. if more. Full title of article. Journal Name, Year;Volume(Issue):Page numbers. doi: (if available).

EDITORIAL NOTE:

- This manuscript template is intended as a general framework. Authors should adapt the sections according to the type of submission (e.g., Original Research Article, Review Article, Case Report, or Short Communication).
- Sections that are not relevant to the specific manuscript should be removed, and the content should be modified to accurately reflect the study design, methodology, and findings.
